

Letter of Recommendation for:

Mid-Continental Restoration Company, Inc.  
4101 Murray Avenue  
Fort Worth, TX 76117

To Whom It May Concern:

Dallas Theological Seminary mandated a company that could fully restore the vertical and horizontal waterproofing on a ten story, 180 bedroom apartment building that would be fully occupied during the entire remediation process.

After through research, site visits and reference checks on multiple contractors Dallas Theological Seminary retained the services of Mid-Continental Restoration Company, Inc. for their project.

The high level of professional experience, personnel, communication, resident courtesy and project management was exactly what DTS required to make this project successful from start to finish for all parties involved.

We continue to call on them for their expertise and I would highly recommend them for future work.

Respectfully,

Glenn Monro  
Director of Facility Coordination &  
Construction Management  
Dallas Theological Seminary  
Dallas, TX 75204
